# The Bulletin.

**PARAGRAPHS.**

—A large Newfoundland dog, belonging to the keeper of the lighthouse at Bear Island, Me., is of great value to the captain of the steamer *Lewiston* in foggy weather, when the light cannot be seen. He barks from the time he first hears the paddle-boat until the engineer salutes him with the whistle, when he walks off with great satisfaction.

—The most prominent man at Providence on Sunday was a New York salesman, who resembles in a marked degree the escaped *Boat Tweed*. Many persons with an eye to the public good and the \$10,000 reward, closely watched the *Aldrich House*, where he was trying to pass a New England Sunday, but no one undertook to cage him.

—The following linguistic code is laid down by a Gallic author as the correct thing: "If you speak German, speak it to your shoemaker or tailor; if you speak Italian, speak it to a harpist; if you speak English, speak it to Englishmen; if you speak Chinese, try to find a Chinaman who may understand you; but when you are with French people, speak French if you can."

**THE MOST EFFECTIVE REMEDY EVER**

**Discovered—Benson's Caprine Plaster.**

At the time of the history of the medicinal and drug business, which has met with greater approval and success than Benson's Caprine Plaster. Why they are preferred to all other porous plasters is owing to their improved composition: they are, simultaneously, curative and effectually.

Physicians and the general public who acknowledge the great benefits derived from the use of the ordinary porous plaster, however, maintain that their action is not sufficiently prompt, requiring time, patience and continuous wear to effect a cure. Benson's Caprine Plaster overcomes this difficulty by accomplishing in a few hours, that which it takes any other plaster as many days.

Although a recent discovery, Caprine Plaster has been thoroughly tested by physicians, and in each instance has been pronounced the most remarkable, safe, certain and thoroughly efficacious remedy ever discovered.

Incorporated in an improved Porous Plaster has been accomplished after repeated solicitations from the medical fraternity and is now prescribed by them with unprecedented success; especially in rheumatism, pleurisy, sciatica, kidney complaints, and all diseases for which a Porous Plaster has been used.

Its marvelous influence over the circulation, and general effect on the system is almost incredible: from the moment of its application to the affected part, it operates with astonishing vigor—brings relief and cures more effectively than any known Plaster, Liniment or Compound.

It is a genuine pharmaceutical preparation of the highest order of merit: its ingredients are entirely vegetable and free from Mineral or Metal Poisons. One trial will convince the most skeptical of its superiority over the ordinary Porous Plaster. When you desire prompt and immediate relief, ask your druggist for Benson's Caprine Plaster. Price, 25 cents.

# CAIRO, ILLINOIS.

**The Trustees of the Cairo City**

**Property desire to call public attention**

**to the merits of their property, comprising**

**a considerable portion of the City of**

**Cairo, in Alexander County, in the State**

**of Illinois, and lands immediately adjacent**

**thereto.**

This city, as is well known, is situated at the confluence of the Ohio and Mississippi rivers, at the head of uninterrupted navigation on the Mississippi, being below obstructions by ice in the winter and low water in summer, and thus has a clear and open river communication at all times over the Mississippi and its tributaries, with all the country south, to the Gulf of Mexico and the Atlantic Ocean. Cairo has also the same character of communication with all the country north over the streams flowing by it, when those streams are not unavailing by reason of ice or low water.

Before the era of Railroads, Cairo had a commanding position as a centre of commerce and navigation. This importance of position she still possesses, but has now the additional advantage of being a great railroad centre, a number of the most important railroads in the Valley of the Mississippi converging to and having their termini there. Among these, coming from the north are the great Illinois Central Railroad, which traverses the entire state of Illinois from its extreme northern and north-eastern to its southern limit, and by its connection extends into all the great northwestern grain producing States; the Cairo and Vincennes, extending from Cairo to the City of Vincennes, in the State of Indiana, where its connections afford direct railroad communication with all Eastern cities; and the Cairo & St. Louis Railroad, affording a direct railroad communication with the City of St. Louis and all the railroads centering there. The roads coming from the South are the New Orleans, Jackson and Great Southern and the Mobile and Ohio Railroads, which give direct communication with New Orleans and other Southern Atlantic sea ports, and by connecting roads with all the cities of the South. The Cairo, Arkansas and Texas Railroad, which affords similar communication with Southern Missouri, Arkansas and Texas, and the principal cities of those States, and the fact that it will give, also, direct connection with the Texas and Pacific Road when it is completed, thus giving direct communication with the principal ports of the Pacific Ocean and the Gulf of Mexico, and by its connection with the Texas and Pacific Road, which affords similar communication with Southern Missouri, Arkansas and Texas, and the principal cities of those States, and the fact that it will give, also, direct connection with the Texas and Pacific Road when it is completed, thus giving direct communication with the principal ports of the Pacific Ocean and the Gulf of Mexico, and by its connection with the Texas and Pacific Road, which affords similar communication with Southern Missouri, Arkansas and Texas, and the principal cities of those States, and the fact that it will give, also, direct connection with the Texas and Pacific Road when it is completed, thus giving direct communication with the principal ports of the Pacific Ocean and the Gulf of Mexico, and by its connection with the Texas and Pacific Road, which affords similar communication with Southern Missouri, Arkansas and Texas, and the principal cities of those States, and the fact that it will give, also, direct connection with the Texas and Pacific Road when it is completed, thus giving direct communication with the principal ports of the Pacific Ocean and the Gulf of Mexico, and by its connection with the Texas and Pacific Road, which affords similar communication with Southern Missouri, Arkansas and Texas, and the principal cities of those States, and the fact that it will give, also, direct connection with the Texas and Pacific Road when it is completed, thus giving direct communication with the principal ports of the Pacific Ocean and the Gulf of Mexico, and by its connection with the Texas and Pacific Road, which affords similar communication with Southern Missouri, Arkansas and Texas, and the principal cities of those States, and the fact that it will give, also, direct connection with the Texas and Pacific Road when it is completed, thus giving direct communication with the principal ports of the Pacific Ocean and the Gulf of Mexico, and by its connection with the Texas and Pacific Road, which affords similar communication with Southern Missouri, Arkansas and Texas, and the principal cities of those States, and the fact that it will give, also, direct connection with the Texas and Pacific Road when it is completed, thus giving direct communication with the principal ports of the Pacific Ocean and the Gulf of Mexico, and by its connection with the
